

SINICLINE

**PACKAGING SOLUTION FOR
Apparel and Fashion Accessories**

More Than Packaging... Branding Solution

About Us

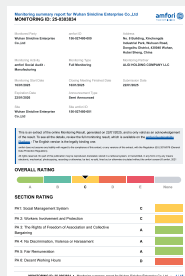

Established in 2003, Sinicline always focuses on packaging solutions for global fashions, electronics, and beauty & cosmetics brands. Main products include various hang tags, labels, hangers, packaging boxes and bags etc. With competitive price, stable quality, fast delivery and good after-sale service, Sinicline wins the trust of many customers. Besides, Sinicline also provide other services including design service, barcode& RFID printing service, warehouse service and packing service. After years of efforts, Sinicline has become strategic partners with many quality brand customers.

Sinicline has experienced and creative design team, always takes customers' ideas, brand history and fashion trend into consideration while making design. By attending various shows and exhibitions, they can hold the pulse of time, catch the fashion elements. Sinicline also has R & D team, always research new materials and techniques to develop the new products and make functional test. In recent years, the R&D team is always searching the sustainable materials for different products. The packaging of eco-friendly materials is loved by more and more customers.

Sinicline takes advantages of RFID & barcode technology and offer customers a full set of processing solution. Sinicline can design label patterns according to customer requests, then make corresponding database and print out with special printers. It is also workable that customer provide pattern and data in TXT, DBF, DAT or EXCEL file. Sinicline converts to required format and print out very easily.

Sinicline strictly controls the quality of products and attaches great importance to after-sales services. We pay attention to all details from raw material to color difference control, till delivery and after sales service. Sinicline has warehouses both in Hubei and Zhejiang. We can provide warehousing services. Additionally, we have over 20 years of export experience and can offer various support to customers in terms of logistics and export.
